

	A	B	C	D	E	F	G
1	Attributes in no particular order	Description	Data Sample				
2	Actual Arrival	time and date when flight arrived at airport	2017-07-16 10:39:00+03				
3	Latitude	Airport latitude coordinate	62.09329987				
4	Aircraft Model	Manufacturer model of aircraft	Boing 777-300				
5	Arrival Airport Code	Arrival Airport Code	JFK for John F Kennedy Airport				
6	Boarding No	Boarding card number per each passenger per flight	124567				
7	Booking Date	Booking Date with timestamp and time zone	2017-07-05 03:12:00+03				
8	City	City where airport is located	Moscow				
9	Departure Airport Code	Departure Airport code	BOS for Logan Airport				
10	Fare condition	Travel class	can be one of several values: first, business, economy, comfort				
11	Flight ID	Flight unique number assigned to each flight	306				
12	Actual Departure	time and date when flight left airport	2017-07-16 09:44:00+03				
13	Longitude	Airport longitude coordinate	129.7709961				
14	Airport Name	Airport name	John F Kennedy Airport				
15	Passenger Id	Unique ID given to each passenger on each flight	8149 604011				
16	Range	The maximal distance an aircraft can fly between takeoff and landing - in Miles	12000				
17	Booking Reference	A number given to each booking made by a passenger	DNRTF				
18	Scheduled Arrival	Flight scheduled arrival time and date	2017-09-10 14:55:00+03				
19	Seat No	Seat number per flight	2D				
20	Status	flight status	Can be ONE of several values per flight: Arrived, scheduled, cancelled, late				
21	Ticket No	Ticket number printed on boarding pass	5435212351				
22	Time zone	Time zone for airport location	Asia/Japan				
23	Booking Total Amount	Amount passenger paid for flight booking	2356.11				
24	Scheduled Departure	Flight scheduled departure time and date	2017-09-10 09:50:00+03
